Want to help real
butterflies?

Plant
native wildflowers
and skip the pesticides—
they'll thank you
with their wings!

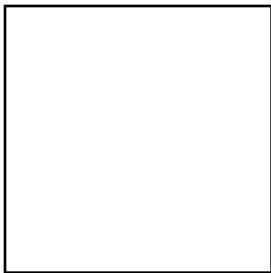

The Butterfly Life Cycle!

Inspired by 'Caterpillar to Butterfly' by Laura Marsh

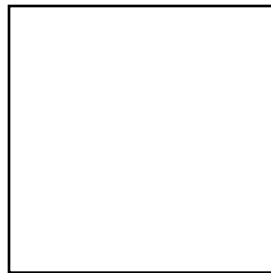

Let's learn how a butterfly is born!

1. Egg – It all starts when a butterfly lays a tiny egg on a leaf.
2. Caterpillar – A small, hungry caterpillar hatches and eats a lot!
3. Chrysalis – When it's ready, the caterpillar makes a chrysalis (a cozy case).
4. Butterfly – After a while, out comes a beautiful butterfly ready to fly!

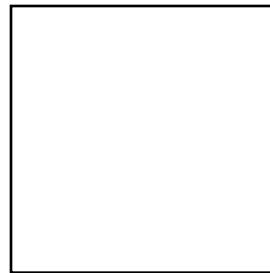

Can you draw each stage of the butterfly life cycle in the boxes below?

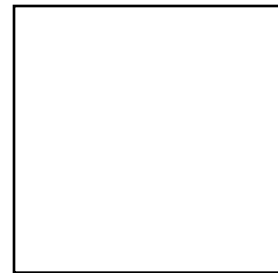

Egg

Caterpillar

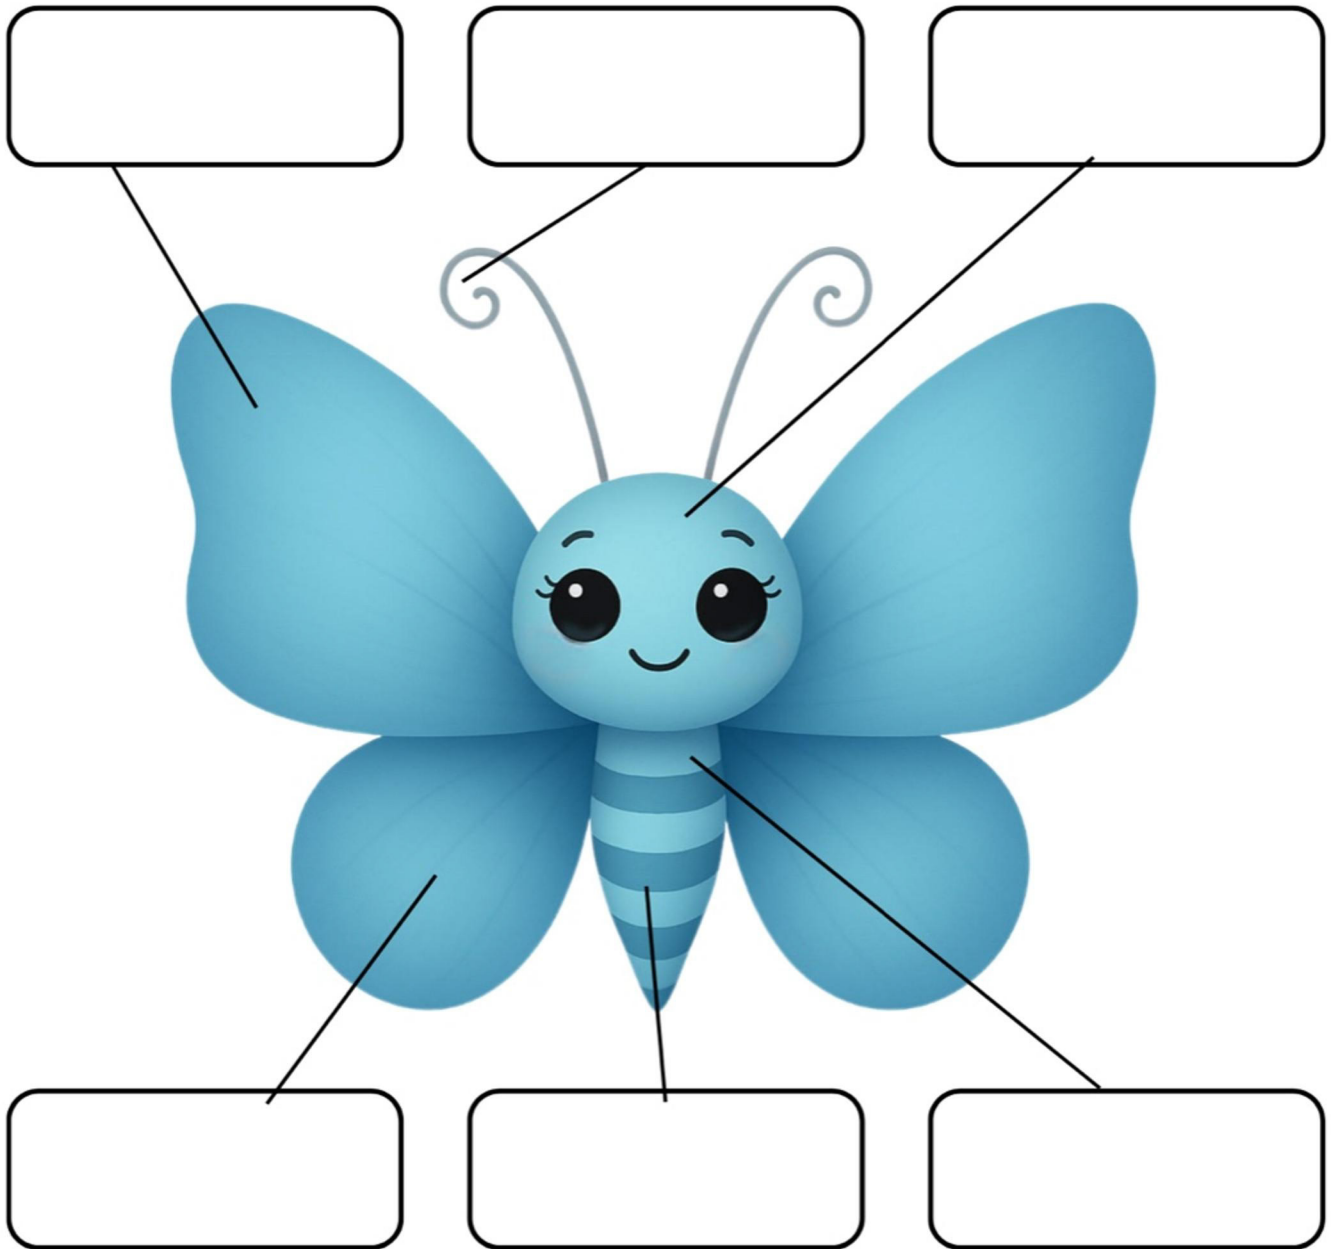

Chrysalis

Butterfly
